

Visual Studio Code interface showing the initial setup of a web project. The Explorer sidebar on the left displays the file structure, including 'longitud.html' and 'temperatura.js'. The Editor window shows the HTML code for 'longitud.html', which includes a form with a select dropdown for 'tipo', a number input for 'valor', and a text input for 'res'. The Terminal at the bottom shows the execution of 'git add -A' and 'git status' commands, indicating that the files have been staged for commit.

```
longitud.html M X index.html longitud.js temperatura.js
vistas > longitud.html > html > body > div.parent > div.conte1.div1 > div.conte2 > select#selectTipo.
11 <div class="parent">
12 <div class="conte1 div1">
13
14 <div>
15 <select name="tipo" id="" class="selectTem">
16 <option value="longitud">Longitud</option>
17 </select>
18 </div>
